## LAMIGLOSS FEATURES

**Extremely resistant to scratches and abrasions**
Surfaces resistant to impacts and wear that may occur in contact with objects.

**Stain resistance**
Products resistant to all kinds of food and chemical stains for daily use.

**Environmentally friendly**
Products produced with certified raw materials obtained from sustainable forests.

**Light fastness**
Thanks to the high resistance to light, colors remain unchanged.

**High brightness**
Unique surfaces that offer a mirror effect with their reflections and finishes.

**Long lasting**
Long-lasting durability against harsh environmental conditions.

**Antibacterial and does not contain toxic substances**
Surfaces resistant to impacts and wear that may occur in contact with objects.

## LAMIMATT FEATURES

**Extremely resistant to scratches and abrasions**
Surfaces resistant to impacts and wear that may occur in contact with objects.

**Stain resistance**
Products resistant to all kinds of food and chemical stains for daily use.

**Environmentally friendly**
Products produced with certified raw materials obtained from sustainable forests.

**Light fastness**
Thanks to the high resistance to light, colors remain unchanged.

**Fingerprint prevention**
Surfaces that are fingerprint resistant and easy to clean.

**Surface matteness**
Superior quality, natural-looking surfaces obtained by providing perfect distribution of reflected light with Excimer technology.

**Long lasting**
Long-lasting durability against harsh environmental conditions.

**Antibacterial and does not contain toxic substances**
Surfaces resistant to impacts and wear that may occur in contact with objects.

**Soft touch effect**
Soft surfaces with velvet and silky texture.

## LAMIFEEL & LAMISYNCRON FEATURES

**Natural surfaces**
Surfaces that provide a natural and realistic finish.

**Stain resistance**
Products resistant to all kinds of food and chemical stains for daily use.

**Environmentally friendly**
Products produced with certified raw materials obtained from sustainable forests.

**Color stability**
Thanks to the high resistance to light, colors remain unchanged.

**Easy to clean**
Thanks to its quality coating, the surfaces are easy to maintain and clean.

**Long lasting**
Long-lasting durability against harsh environmental conditions.

**Antibacterial and does not contain toxic substances**
Surfaces resistant to impacts and wear that may occur in contact with objects.

## LAMIEFFECT FEATURES

**Natural surfaces**
Surfaces that provide a natural and realistic finish.

**Stain resistance**
Products resistant to all kinds of food and chemical stains for daily use.

**Environmentally friendly**
